

WPI Partnership Implementing Math and Science Education (PIMSE) Schedule 20012-13

As a teacher in the PIMSE program, we offer many opportunities for you to develop your effective use of the ASSISTment system. First and foremost is the cooperative help of a Graduate Student from WPI who will work closely with you. They will help you prepare in the summer and work throughout the year. The grant itself provides up to \$4500 in funding for each participating teacher. This money is paid at a rate of \$35/hour. As you complete each of the activities outlined below you will submit timesheets to be reimbursed. In order to provide flexibility to peoples ability to commit time you will notice some activities are optional.

Kick off Class/ Workshop

Meet your fellow, learn about PIMSE and GK-12 (in other words where the money comes from), and learn about how we document our work with the program. Then we will do ASSISTment 101 trying to get to as many features as possible.

<i>June 2th 8:00 – 1:00</i>
--

Summer Work

During your first year, you can work up to 40 hours during the summer at WPI preparing your account for the year to come. Your fellow will be available to help as well as other teachers involved with the program and Cristina Heffernan.

<i>The time is to be determined by you and the PIMSE staff</i>
--

August Class

In this second workshop/class we will share our plans for the classroom and how each teacher/fellow team plans to collect data and respond. We will focus on how to use the extra person in your classroom to your advantage.

<i>August 18th 8:00 – 1:00</i>

Work with Fellow in your classroom

Teacher and Fellow work together to implement the ASSISTment plan developed in the first two classes. This meeting would be for a minimum of 1 hour before or after school to plan and reflect.

<i>September – May 1 day a week.</i>

Teacher visits to other schools

Twice during the 2009-10 school year we will conduct school visits so you can see how other teachers in the community are using the ASSISTment system. We will provide the funding for a substitute to help facilitate the visit. **This is not required.**

TBA

Masters Class or Workshops

WPI class. Attendance to **all** classes is required for teachers who are taking the class for credit. Teachers taking the workshop for a stipend **can** attend all classes but **must attend a minimum of one every other month.** The Feb and April classes are not part of the Masters class.

Monday October 2nd 5:00 – 8:00

Saturday October 13th 8:00 -1:00

Monday October 22th 5:00 – 8:00

Saturday Nov 10th 8:00 -1:00

Saturday Dec 1st 8:00 – 1:00

Saturday Jan 5th 8:00 – 12:00

Saturday April 6th 8:00 – 12:00

School Visit

Our cooperating evaluator will visit your school, observe you working with your fellow and your students and discuss what you have been doing with your fellow. This is an excellent opportunity to show off your work and discuss the great things you have been doing.

A week in February During the school day.

Summer of 2010

You can work during the summer to develop content for the following year. This can be funded up to the total of \$4500 for the year. How much time you have will depend on billing for the previous year.

June, July, August 2012

Out of school time Commitment overview (*optional)

Activity	Total Hours	Pay
1 full Saturday	7	\$ 245
6 half Saturdays (3 optional)	30	\$ 1050
